

# Resident Rooms at Medical Center for Alzheimer's

## PROJECT COST

\$44,000 PER ROOM	MULTIPLE ROOMS AVAILABLE
----------------------	-----------------------------

## \ Who you will help

Patients with Alzheimer's and dementia related diseases are highly dependent on long-term therapy. Access to quality care directly extends the lives of Alzheimer's patients while lessening their suffering, and that of their loved ones. At the Israeli Medical Center for Alzheimer's, residents in different stages of their disease are offered treatment and services to support their daily living. A rich schedule of activities is proven to preserve cognitive abilities and lift patients' spirit - programming includes physical and nutritional care, social activities and occupational and creative arts therapies.

## \ The Location

Ramat Gan, just east of Tel Aviv - Yaffo.

# Resident Rooms at Medical Center for Alzheimer's

## \ Your donation will fund

Within the Alzheimer's ward, residents live in shared rooms. The ward requires the renovation of new bedrooms to ensure a comfortable living space that meets the requirements from the Ministry of Health. The top-to-bottom renovation includes new floors, ceiling and lighting, windows, doors and painting as well as new plumbing systems and sanitary equipment. The donor will be invited for a tour of the renovated center along with a special inauguration ceremony, and their name will be displayed prominently at the entrance to the new room.

## \ About

The Israeli Medical Center for Alzheimer's was established in 2001. The center offers leading edge treatment plans from a multi-disciplinary staff with expertise in the medical, nursing, occupational and social disciplines. The building continues to grow and expand thanks to the support of generous donors worldwide, who recognize the tremendous impact that these initiatives bring to the lives of patients and their families.
